## Specializing In Large Equipment Since 1855

**Design - Build - Install**

### WHO WE ARE

Located in West Pittston, PA, Finch Manufacturing & Technology LLC (FMT) manufactures, fabricates, refurbishes, and repairs components and systems to include numerous categories of large/heavy duty equipment. Our unique machinery, facility, and engineering capabilities enable us to machine or fabricate the **LARGEST EQUIPMENT and we have been doing this since 1855**. Over the last few years, FMT has invested hundreds of thousands of dollars into equipment, factory upgrades, and more recently changing ownership to become a Service-Disabled, Veteran-Owned, Small Business (SDVOSB). Our staff of professionals has hundreds of years of management, engineering, and manufacturing experience. We are poised to become a significant presence in the Defense market.

*Finch Manufacturing and Technology's 24,000 sq.ft. facility in West Pittston, Pennsylvania*

### WHAT WE DO

*FMT has variety of manufacture, repair & refurbish capabilities for a range of Defense applications*

FMT manufactures, repairs, and assembles large equipment parts, components, and systems with expertise in rotary equipment. Our commercial work includes crafting a variety of heavy steel components for rotary kilns, asphalt dryers, waste incinerators, mining equipment, and other large-scale industrial fabrications. Not only is FMT a leader in producing large wheels/tires, shafts, thrust rollers, and trunnions, we also manufacture numerous categories of heavy-duty equipment and make parts ranging from inches and pounds to feet and tons. FMT's skilled

machinists and engineers, unique and redundant equipment, and our factory's 100% crane coverage allows us to accommodate urgent customer requests and deliver our products on-time and on-budget. FMT's engineering department works with our clients in a customer-focused manner to "Design - Build - Install" complex industrial and engineering systems and reverse-engineer critical components. Our vast manufacturing capabilities and project management skills have enabled FMT to design, engineer, and fabricate components for complex construction projects ranging from underwater assemblies to a Fragmentation Chamber for the Department of Defense. FMT takes pride in our ability to improve our customer's processes and deliver high-quality parts and services that exceed their expectations. We are committed to innovation and providing cost-effective solutions for our customers' real-world applications.

Finch Manufacturing & Technology is ready to assist you with your requirements and needs.

# SERVICES AND PRODUCTS

*FMT's Rotary Design and Manufacturing expertise increases customer performance and efficiencies*

## Services

FMT offers services in more than 101 categories of heavy-duty processing machinery and equipment. Our team is available 24/7.

- Engineering and Project Management
- “Design-Build-Install” Large Component Systems and Construction Projects
- Reverse Engineering of Components
- Metal Part and Component Manufacturing
- Welding, Boring, Drilling, Bending, Assembling
- Refurbishment and Modernization Projects
- Lock and Gate Manufacturing and Repair
- Machine Shop/CNC Capabilities
- Large Equipment Machining and Fabrication
- Field Service and Repair to include SmartDiagnostics Equipment Health Monitoring

## Products

FMT is a leader in producing large drums, wheels/tires, shafts, thrust rollers, and trunnions. Our product capabilities include:

- Fragmentation Chambers
- Lock and Gate hardware
- Tank and Turret Assemblies
- Design and Build Projects
- Certified Welding
- Large Machining
- Fabrication
- Steel Wheels, Tires & Shafts
- Complete Screw Auger Systems
- Storage Tanks and Manifolds
- Rotary Processing Equipment

NAICS Codes	NAICS Industry Description
213112	Support for Oil
331999	Misc. Fabricated Metal
332312	Fabricated Structural Metal Manufacturing
332710	Machine Shops
332721	Precision Turned
332722	Bolt, Nut, Screw, Rivet and Washer Manufacturing
333131	Mining and Equipment Fab
333132	Oil Equipment Fab
333249	Fabricated Structural Metal Manufacturing
333517	Machine Tool Manufacturing
333519	Rolling Mill and Other Metalworking Machinery Manufacturing
333611	Turbine and Turbine Generator Set Unit Manufacturing
333612	Speed Changer, Industrial High-Speed Drive and Gear Manufacturing
333613	Mechanical Power Transmission Equipment Manufacturing
333618	Other Engine Equipment Manufacturing
333912	Air and Gas Compressor Manufacturing
333914	Measuring, Dispensing, and Other Pumping Equipment Manufacturing
333921	Elevator and Moving Stairway Manufacturing
333922	Conveyor and Conveying Equipment Manufacturing
333994	Industrial Processing- Furnace and Ovens
336992	Military Vehicle Manufacturing Parts
336999	Other Vehicle Manufacturing
541330	Engineering Services Consulting
541340	Drafting Services
541420	Industrial Design Services
541618	Other Consulting
811310	Commercial and Industrial Machinery and Equipment (except Automotive and Electronic) Repair and Maintenance

Finch Manufacturing & Technology, LLC qualifies as a small business under each of the listed NAICS Codes.

In addition to our core capabilities, FMT is a Service-Disabled Veteran-Owned Small Business. This means we

have a vested interest in not only producing the highest quality parts and equipment, but in the continued security of our country and the success of the Defense industry.

FMT works in a customer-focused manner to design, engineer, build, install & support our client’s complex systems. This includes reverse-engineering, accommodating urgent customer requests, such as emergency machining, refurbishment & repair. Today, FMT is applying its expertise to assist our customers who are taking on some important challenges. FMT can provide the full spectrum of services from a single part to the most complex “Design-Build-Install” project. Most importantly - our team is available 24/7.

Finch Manufacturing & Technology brings more than a vision or an idea for your future project or requirement. Our tested project management and broad manufacturing, capabilities allow us to deliver the total package of products and services to our customers, allowing them to focus their resources on their core businesses. We are fortunate that our track record demonstrates that once we manage a large project, our customers come back for the next project.
